IPCSS-RWB Installation Template

16.00 in.

Stud edge

Wall bracket mounting holes (4 places)

Instructions:

- Place template on mounting surface, aligning keyed mounting holes with structural features (studs)

- Ensure access port "A" is aligned with wiring source (junction box)

- Mark location that fasteners will attach to using the centerline marks provided

- Remove template from mounting surface

- Feed CAT5 cable through access port "A" in wall bracket

- Fasten wall bracket at previously marked locations

Access port, "A"
